Gentlemen

I have a large collection of Potawatomi Indian Relics obtained from the Indians living in the forest of Northern

Wisconsin. Among these are several medals. One of these is a "lion and wolf medal" in perfect condition. Kindly inform me whether you have one of these. If you have not I would be pleased to send you this one for your inspection. Please return enclosed letter.

Very truly yours

R. Zeleny

Dear Sir:

Replying to your favour of September 26th, which has unfortunately been delayed owing to absence, I would say that we have two specimens of the Lion and Wolf medal.

We should, however, be very glad to hear from you with regard to what other medals you may have as they may very greatly interest us.

Very truly yours,

Curator
